

# VISHAL SHRIVASTAVA

MERN STACK DEVELOPER

📍 Pune, Nashik    📞 +91 8237677778    ✉ s96viky@gmail.com

## SUMMARY

MERN Stack Lead Developer with 8+ years of experience in developing and optimizing scalable web applications. Skilled in leading development teams, implementing best practices, and enhancing productivity with GenAI solutions. Proven track record in UI/UX enhancement, API integrations, and full-stack application deployment, with a strong emphasis on React, Node.js, Express, and MongoDB.

## SKILLS

**Technical Skills:** React, Node.js, Express, NestJS, Next.js, MongoDB, Prisma, Tailwind CSS, Material-UI, ShadCN UI

**Tools & Platforms:** Metabase, Docker, Redis, AWS, Git, VS Code

**DevOps and Analytics:** Docker, CI/CD, MongoDB Compass, Postman, Metabase

**AI & Automation:** LLM Plugins, AI Assistant Development, Google OCR

## EXPERIENCE

### Concentrix - Software Engineer II

Pune, India

08/2021 - Current

- **Project Leadership:** Directed the design and structure of multiple projects, establishing UI best practices and optimizing workflows to achieve reduced turnaround times.
- **Performance Optimization:** Leveraged advanced caching techniques with React Query and React Table to enhance UI performance.
- **UI & API Development:** Enhanced user experience by integrating ShadCN, RadixUI, and Tailwind, while leading the development of robust RESTful APIs using Express and NestJS.
- **Database Management:** Effectively managed both SQL and NoSQL databases using Mongoose and Prisma ORM for efficient data handling and storage.
- **Data Visualization:** Developed and deployed Metabase-powered dashboards for seamless integration of data analytics within the UI.
- **DevOps & Deployment:** Oversaw DevOps processes, including deployments, configuration changes, and real-time monitoring to ensure stability and scalability.
- **Team Development:** Conducted knowledge transfer sessions and skill-building initiatives, enhancing team performance and technical expertise.
- **GenAI Initiatives:** Developed a Continue plugin integrated with the organization's LLM to streamline development efforts and created ixHello, an AI assistant that improved team productivity and operational efficiency

### Connectwise - Software Engineer

Pune, India

04/2020 - 08/2021

- Led development of key ITBOOST features, including dashboards, resulting in a 20% decrease in latency.
- Designed responsive React components with Material UI, implemented APIs for microservices, and optimized data management with MongoDB and AWS.

### Accenture - Application Development Analyst

Pune, India

11/2016 - 04/2020

- Designed UIs and built APIs with React and Node.js, deployed on AWS Elastic Beanstalk for scalability.
  - Created innovative solutions like Alexa Skills and a Virtual Medicine Assistant using Google OCR.
- 

## EDUCATION AND TRAINING

### Bachelor of Engineering, Computer Engineering, 08/2016

Sinhagad College of Engineering - Pune, India

Percentage: 62%

### HSC, Science 07/2012

K.T.H.M - Nashik, India

Percentage: 80.50%

### SSC, 2010

St. Lawrence High School - Nashik, India

Percentage: 90.73%

---

## ACCOMPLISHMENTS

- **Concentrix Hackathon 2023:** 2nd place for AI-powered productivity tools.
- **Concentrix Hackathon 2022:** Top 6th placement.
- **Recognition:** Multiple commendations from senior management for excellence in project leadership and innovation.
