EXPERIENCE

CONCENTRIX | SOFTWARE ENGINEER II   Pune | Aug 2021 – Till Date

- Played a pivotal role in designing, defining the project structure, and implementing best practices for UI development.
- Explored and implemented the ShadCN UI library in UI apps, leveraging RadixUI and Tailwind for enhanced UI capabilities
- Implemented Authentication and Authorization using Oauth2 and Microsoft Azure AD
- Worked on React Query and React Table for caching techniques, significantly enhancing UI performance.
- Created APIs using Express and Nestjs Framework
- Involved in writing queries using Mongoose and Prisma ORM for both SQL and NoSQL databases
- Built a Dashboard using Metabase, seamlessly integrated into the UI for analytic reporting
- Implemented Monorepo architecture using Turbo mono-repo, streamlining development workflow
- Involved in DevOps activity for deployment, configuration changes, monitoring logs
- Knowledge transfer to the new team members and upscaling the overall team output.

CONNECTWISE | SOFTWARE ENGINEER   Pune | April 2020 – August 2021

- Worked on developing Core Asset for ITBOOST app such as Company dashboard (Locations, Passwords, Company), Documentation (KB Articles, Runbook, Checklists), and Admin Dashboard (User, Security Roles).
- Designed React components using Material UI based on wireframes.
- Integrated APIs with the UI to ensure seamless functionality.
- Implemented lazy loading techniques for performance improvement.
- Implemented APIs for various microservices in Express.
- Utilized MongoDB as a database for microservices
- Interacted with MongoDB & AWS to perform CRUD operations

ACCENTURE | APPLICATION DEVELOPMENT ANALYST   Pune | Nov 2016 – April 2020

- Involved in designing the user interface
- Implemented UI and REST APIs using React and Nodejs Express Framework
- Deployed Web applications on AWS Elasticbean.
- Solely implemented various innovation project such as Alexa Skills, Virtual Medicine Assistant(Google OCR)

SKILLS

LIBRARIES/FRAMEWORKS	Javascript, React, Nextjs, Nodejs, Nestjs, Material UI, Tailwind CSS, Prisma, ShadCN
TOOLS / PLATFORMS	Metabase, Docker, Redis, MongoDB Compass, Postman, Git, VS Code
DATABASES	MongoDB, MySQL

HONORS & AWARDS

- Won 2nd price in Concentrix Hackathon for year 2023
- Top 6th in Concentrix Hackathon for year 2022
- Received multiple commendations from senior management for outstanding performance and dedication to project success
